

PHOTO GALLERY

The photos in this gallery are from various events that the Philippine Association for Chinese Studies (PACS) organized through the years since 1987.

This section features the authors and the visual documentation of their involvement with PACS in the same selection timeframe as the written pieces.

While the photos are graphic representations of the strong sense of community behind the authors' scholarship, practice, and public engagement, the limited space in this special journal issue belies the great cloud of enthusiasts that make up the wider community of PACS and the field of China/Chinese Studies.
